Queensland's international education and training roadmap 2021–2022

About Study Queensland

Study Queensland is the specialist international education and training unit of Trade and Investment Queensland. Trade and Investment Queensland is the Queensland Government's dedicated global business agency, helping Queensland exporters take their products and services to world markets, and promoting Queensland as the perfect place for investment and extending knowledge. We have global representatives in markets around the world, and regional trade and investment advisors in major centres across Queensland.

Mission

Vision

A strong and sustainable

Queensland international

education and training

industry that builds

global engagement,

ambassadors and is a

catalyst for attracting

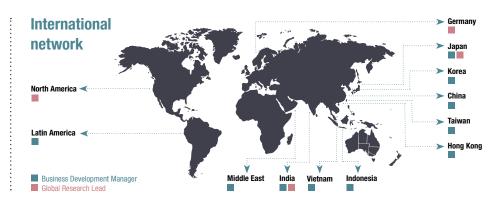

and developing talent

to grow economies and

nurtures lifelona

communities.

In partnership with industry, the Queensland Government will build a strong and sustainable international education and training industry through advocacy, connectivity, knowledge sharing and a commitment to strengthening Queensland's talent ecosystem.

Study Queensland objectives

| 1: International | 2: Safe and | 3: Student experience, | 4: Industry | 5: Regional |
|--|---|--|--|--|
| development | gradual return of | development | development | capability |
| and diversification | international students | and support | and support | building |
| Position Queensland as an innovative talent generator by increasing brand awareness of Queensland's emerging industries and education and training capability, as well as the Queensland study experience Establish a diverse presence in global markets Facilitate export and investment outcomes for Queensland education and training sector businesses | Following the decision of the Queensland Government, facilitate the safe arrival of international students into Queensland with industry, Queensland Government agencies and the Australian Government when it is safe to do so | Nurture the next generation of talent and businesses, including the Launch U program Support international students through the Queensland Student Hub network and 1800QSTUDY Bolster international student engagement with support and events | Continue to support the sector to respond to disruption Participate in industry, state and federal forums Research, data and policy analysis and support | Support regions to promote Queensland's unique local study destinations Grow capacity of regional study clusters to deliver positive student experiences and community cohesion |
