Queensland, Australia

Why Queensland

With three distinct climate zones, Queensland is a ‘one-stop-shop’ for an incredible variety of products that promote health and wellness through our distinct outdoor lifestyle.

The Queensland government supports a range of health and wellness programs across the state to help drive health and wellbeing outcomes – and make healthy happen, both here and overseas.

Queensland has the largest area of agricultural land of any Australian state.

Our state is home to the majority of Australia’s beef herd and our farmers produce more than 120 types of fruit and vegetables.

Queensland is the home of healthy.

Queensland’s health and wellness producers are particularly renowned for the excellence of the products in the contract manufacturers sector, the functional foods and beverages sector, the nutraceuticals sector and the sports nutrition sector.

Right across the state, producing exceptional fresh produce means Queensland’s processed food companies can produce everything from exotically flavoured beverages and decadent desserts, to health-promoting foods and naturally nutritious snacks.

Queensland food companies are committed to producing food that is safe and traceable, has a low environmental impact, and is delivered directly to

valued customers – in both the retail and wholesale sectors.

The companies participating in this Health and Wellness Directory are among Queensland’s best.

They have the experience and expertise, along with the innovative flair to deliver a wide range of exciting products that appeal to a vast range of sophisticated buyers.

High standards and a sense of pride drives Queensland producers to consistently deliver exceptional products that showcase local flavours and ingredients.

Queensland producers invest significant effort to keep up with market trends, especially health-conscious ones, and ensure they are responsive to buyer needs.

Often adopting cutting edge, in-house production and processing facilities, the commitment of Queensland producers to high quality and food safety standards is world-class – meaning buyers can always have confidence in Queensland-made food products.

Through this directory, we hope you discover exciting new products that can provide health and wellness outcomes to your customers, wrapped in a unique maroon Queensland bow.

Contract manufacturers

BJP Laboratories

BJP Laboratories Pty Ltd stands as a premier Australian manufacturer specialising in probiotic products, listed medicines, food, and dietary supplements. Nestled within the vibrant locale of the Gold Coast, Queensland, their expansive production facilities extend across a remarkable expanse of 10,000 square metres. Encompassing three strategically designed sites, these facilities seamlessly integrate manufacturing, testing, and storage.

Distinguished by their TGA cGMP licence, APVMA, and ACO Certification, their facility boasts a comprehensive suite of capabilities tailored to accommodate a diverse range of formulations. From the precise crafting of hard capsules, tablets and powders, to the intricate engineering of liquids, including advanced liposomal solutions, their expertise spans various dosages and formats. Their packaging options are equally diverse, encompassing an array of choices in packaging styles and sizes.

Earning an illustrious reputation, they are known for delivering comprehensive turn-key solutions with a sharp focus on client satisfaction.

Amazonia

From humble beginnings in Fremantle to a global wellness empire, Amazonia Group is revolutionising the way we experience health. Founded in 2008 by Dwayne Martens, Amazonia's journey began with the launch of their hero product, Acai, a deep purple berry native to the Amazon rainforest, known for its superfood benefits that captivated the hearts (and taste buds) of a nation.

Not only was this delicious berry a hit, it sparked a passion for real, organic ingredients, leading to the creation of RawFIT and Raw, their award-winning range of super-digestive, hyper-effective real food supplements, now available in over 16 countries worldwide.

Today, Amazonia Group is headquartered on Queensland's sunny Gold Coast, boasting a world-class Innovation Hub and manufacturing facility. This allows them to push boundaries, continuously developing innovative, organic products that nourish your body and soul. Explore their diverse range of products, from frozen superfood Acai to organic real food supplements, all united by their commitment to quality, sustainability, and deliciousness.

Biosota

Biosota Manuka honey is 100% Australian-made, is cultivated with science, love, respect for our surroundings and generations of beekeeping expertise. Biosota track the honey from hive-to-jar, to ensure its potency, purity, and quality. Every batch of Biosota Manuka honey is passionately tested in three independent laboratories for its MGO levels, to certify its authenticity and offer their customers peace of mind.

Biosota is a third-generation, family-owned business originally from Europe that started beekeeping in the 1950s. The family established a new home in Australia in 1996 to combine its generations of experience with the unique Australian environment, creating premium Manuka honey for Australian and international customers, as well as unique products, such as Manuka honey superfoods blends and Manuka honey lozenges.

BSKT Wholefoods

Founded by former Gold Coast Titans; Ryan James, Greg Bird and Selasi Berdie, BSKT Wholefoods aims to shine a much needed spotlight on native Indigenous ingredients, and share them with the wider community, whilst at the same time supporting circular economies and growth within First Nations communities.

The BSKT native range of superfood products utilises the knowledge of their Indigenous ancestors and medicinal properties of these iconic Australian native foods, combining them with modern plant-based wholefoods.

By choosing their Native range of products you are making a healthy choice not only for yourself, but for the future of Australian food practices and Indigenous communities across the country.

Happy Snack Company

A global pioneer in healthy snacking, The Happy Snack Company®, has been roasting legume snacks for over 30 years. Located on the Sunshine Coast, their sustainably grown Australian chickpeas and fava bean snacks are crispy, crunchy, nutritious, and delicious!

They roast their wholefood snacks at their own modern, purpose-built facility, ensuring they not only taste great, but are free from twelve common food allergens (including gluten, peanuts, tree nuts, dairy, and eggs).

Their nutrient-dense snacks contain twice the amount of protein from corn and four times the fibre of brown rice and come in various flavours, coatings, and sizes to suit everyone from children to adults.

A top 10 snacking brand within the Australian health food sector, their products are proudly stocked by leading retailers including Woolworths, Coles, Aldi, Waitrose, Sainsbury's and Amazon (USA).

Certification

- HACCP certified facility
- All products free from top 12 declared allergens including gluten, peanut, tree nut, eggs and dairy

Macro Mike

Founded in 2016 by Mike Kellett, Macro Mike is a dynamic health food company dedicated to providing natural and delicious alternatives. Identifying a market gap for allergy-friendly, plant-based foods, Mike embarked on a mission to craft high-quality products for those with dietary restrictions. Breaking the mould in the health and fitness industry, Macro Mike emerged as a pioneer, offering a range of gluten-free, dairy-free, and vegan options, including baking mixes, powdered peanut butter, protein powder, bars, and ready-to-eat snacks.

With a commitment to superior taste, Macro Mike developed the best-tasting vegan protein, challenging stereotypes of bland plant-based products. Distinguished by smooth, creamy textures and rich flavours, the brand sets the gold standard for vegan, macro-friendly food. With 100% natural, GMO-free ingredients and a continuously evolving product line, Macro Mike has grown exponentially, establishing a presence in thousands of stores across Australia and New Zealand with plans to rapidly expand internationally.

Morlife

Morlife is Australia's leading functional food manufacturer, and has been researching, developing, manufacturing, and selling a range of nutritionally superior health foods since 2000. The Morlife mission is simple: help consumers 'get more out of life' through vastly improving their nutritional intake in order to achieve wellness. Consumers are becoming increasingly aware that their food intake directly affects their quality of life, so there is a growing demand for 'functional' foods, which can bridge the gap between nutrient deficiencies and health goals. Morlife's products range from convenient superfood powder blends, breakfast cereals, fortified herbal teas, antioxidant-rich snacks and more. Morlife has grown its empire from the ground up. The firm's multi-award-winning products are sold Australia-wide and internationally in 22 countries. Products can be found in major supermarket chains, pharmacies, and health-food stores. Morlife strives to be a great Australian exporter and to support customers around the world to live a far fuller life.

Turmeric Life

Doctor Doug English, an Australian veterinarian and long-time turmeric researcher, created his own Golden Paste by adapting traditional turmeric recipes to modern cooking practices.

In September 2012, he founded the Turmeric User Group on Facebook to gather anecdotal reports of turmeric's use, and the results were astounding!

Doctor Doug has been recommending Golden Paste to his clients for over 10 years now and has been able to help with many diseases related to chronic inflammation, including arthritis and more.

As the Facebook group grew rapidly from about 100 friends and clients to over 270,000 followers, it became apparent that Doctor Doug's turmeric knowledge was in high demand.

This grassroots momentum inspired him to create Turmeric Life – a range of delicious and nutritious turmeric bars and dog bites for pets and owners alike.

Turmeric Life products are FDA compliant and are manufactured in Australia.

Bio Concepts

Orthoplex is Bio Concept's leading practitioner-only nutritional supplement brand based in Brisbane, Australia.

Founded by renowned industry pioneer and award-winning nutritional biochemist Henry Osiecki in 1984, today the business is managed by Henry's son, Dr Michael Osiecki, Managing Director.

As one of the few remaining Australian owned and operated nutraceutical companies, Orthoplex sets the standard for quality, innovation and industry evolution. Their products are manufactured to pharmaceutical standards in Australian TGA GMP, approved facilities.

They are known for their history of excellence, scientific rigour and integrity, and as industry leaders in practitioner education.

Their mission is to 'reduce the burden of chronic disease and create a healthier future', by delivering highly efficacious nutritional supplements, specifically targeting functional medicine practitioners. Orthoplex products cannot be purchased by a patient without either a prescription or recommendation from one of these Healthcare Professionals.

Products

- Orthoplex Bio-Active Lipids 120 Softgel capsules
- Orthoplex CitraMag 120 Capsules
- Orthoplex Clinical C 100 Tablets

Hydra Longevity

Hydra Longevity is an Australian owned business operating from Brisbane, since 2020. They're a team of doctors, Olympians, professional athletes, parents, and chronic disease survivors with one mission – take away the confusion for consumers by simplifying supplementation with a focus on practitioner-formulated nutraceuticals. They use natural science-based ingredients, at optimal doses, targeted to support your health at a cellular level.

From DNA and gut health, to adrenal support and liver protection, they're providing solutions to maximise the functional benefits for cellular rejuvenation. They're making it easier and more accessible to achieve longevity outcomes.

Hydra Longevity care about supporting a wellness-focused and active lifestyle, and their purpose is to change the way people think about and experience ageing. Their aim is to help everyone feel invigorated, vibrant, and youthful so they can do what they love and not feel limited by their age.

When your cells work better, you live better.

Metagenics

Metagenics has been dedicated to helping people live happier and healthier lives for over 40 years. Their passion for scientific discovery, unparalleled quality, and industry partnerships has positioned them as leaders in natural and integrative medicine and functional nutrition.

As part of a global group leading in natural healthcare, they are uniquely placed to ensure they are providing the highest quality supplements and nutritional support in all their products.

To help their customers achieve their health and wellness goals, they forge long-lasting partnerships with health care professionals across disciplines and deliver innovative, quality natural medicine solutions that people love and swear by.

Metagenics have been distributing their brands in Asia for the last 20 years and more recently the Inner Health brand in Japan and China. There are further potential opportunities for distributors in SEA, Korea and China to bring one of Metagenics' science driven brands to market. Metagenics can provide marketing, education and regulatory support to help with a successful market launch.

NAKED HARVEST

Naked Harvest Supplements

Naked Harvest, founded in 2019, is a socially-native brand focusing on health, wellness and lifestyle products. Brother and sister duo, Georgie and Coopa Stevenson wanted to create products that not only complemented their active lifestyles, but also were suitable for their dairy and gluten sensitivities.

Without compromising on taste, Naked Harvest was built on a promise of "No Nasties". Just the best ingredients, stripped back, Australian made and created to fuel your day.

Over the last 5 years, Naked Harvest has grown at an unprecedented speed, backed by an engaged community, affectionately known as the NH Co. The brand continues to be guided by its founders and community, delivering incredible, in-demand and on-trend products.

NaturoBest

NaturoBest is a unique prenatal and preconception nutritional and herbal supplement range designed by experienced fertility naturopath, Nikki Warren. NaturoBest was born out of a desire to supply high quality products that help pregnant women achieve good pregnancy and birth outcomes.

The range has several unique formulas including a separate, evidence-based prenatal vitamin for the first trimester of pregnancy, that also reduces morning sickness.

It is rare to find a calcium powder on the market that is palatable, however NaturoBest has solved this issue by adding LipoCal®, an easily dissolved, palatable calcium. It also includes a therapeutic dose of magnesium citrate, along with co-factor vitamins D3 and K2 as the patented Vita-MK-7®, sweetened with African mango extract and glycine with lemon lime flavouring.

Certification

Provital

Provital is a 100% Australian-owned company established in 2010, in sunny Queensland.

Provital believe strongly in the health benefits of natural supplements. Working closely with Australian researchers, they take great pride in selecting clinically proven ingredients, in their product range.

Their T3 Ultrabsorb Formula has been developed through years of scientific research. It has been demonstrated in 19 human clinical trials to have potent benefits for the skin, brain, hair, liver and cardiovascular and immune systems.

It offers superior antioxidant activity and skin whitening, promotes healthy hair, defends against UV-induced damage and wrinkle formation, improves moisture level and assists scar healing.

T3 Ultrabsorb Formula is a 100% natural palm tocotrienols product, manufactured in Australia in a TGA-approved GMP facility (ARTG listing 409295.)

Their T3 is available throughout Australia at major chemists including Birks Chemists, and selected Priceline stores.

SEIPEL
GROUP

Seipel Group

Seipel Group is an internationally awarded research and development focused nutraceutical company. They are renowned globally for their unique stand-alone, clinically-proven formulations for underserved health conditions including incontinence, overactive bladder, bedwetting, urinary tract infection, male LUTS and cystitis.

Their flagship formula, Urox[®], is the only clinically-proven effective herbal bladder control formula available to the 500 million people globally with incontinence. With 14 clinical trials on the finished formula, and proven efficacy in 90% of people, Urox[®] has deservedly won 7 international awards.

They export formulas containing patented Urox[®] ingredients as finished product in a bottle, bulk capsules, or as a powdered blend, to the US, Europe, and Asia. Their customers include supplement entrepreneurs, established brands, private label retailers, and bulk and contract manufacturers. They also provide clinical expertise to develop private label formulations or to integrate Urox[®] into existing proprietary formulations.

Seipel Group have multiple global patents. They source the purest, high potency herbs, and manufacture with clinically advanced standardisation so that their products consistently deliver life-changing results.

CMBT

CMBT

CMBT is the trusted choice for reliable and transparent nutrition products that boost performance and recovery for the world's best athletes.

Their range is engineered using the highest quality, plant-based ingredients, allowing you to feel your best, perform your best, and unlock your true potential.

Every batch of CMBT products undergoes testing by HASTA to ensure they are safe and suitable for use at the highest level of sports competition.

CMBT (pronounced "c.m.b.t") was established in 2018 with the desire to provide their community with the highest quality and most effective banned substance-tested sports supplements possible.

Since then, CMBT has grown into a lifestyle brand with a deeper purpose: to help their community eat better, move more, be mindful, and foster connections with others. CMBT call these tenets the Bravery Machine.

It is their mission to help their community be braver, achieve things they never thought possible, and become the best versions of themselves—mind, body, and spirit.

Fixx Nutrition

Founded in 2017, Fixx Nutrition offers a range of all-natural, innovative, functional sport and health nutrition products.

With a focus on innovation, the company aims to offer customers highly effective products that will help improve their lives. All products are developed and manufactured at their Burleigh Heads HACCP accredited production site.

Their signature product, CrampFix®, offers very fast relief from muscle cramps. Originally developed for professional rugby players, CrampFix® is sold in 1000+ retailers in Australia and exported to 15 countries.

The sports range is used by professional teams including the Wallabies, UK Cricket & Football and the Springboks. This range also includes a product for rapid relief of non-exercise related muscle cramps. In November 2020, the company expanded by launching a sports nutrition range for endurance athletes.

Fixx Nutrition holds a number of major event sponsorships as the official Nutrition or Hydration Partner, including the Gold Coast, Sydney and Canberra Marathons.
